CORNING

EXTRA VALUE THROUGH OUR EXTENDED WARRANTY

Corning Cable Systems LANscape® Extended Warranty protects your LANscape fibre optic and/or high-end copper solution for a full 25 years.* The warranty covers total system performance as well as each product component of the Corning solution.

Corning guarantees to repair or replace defective products for 25 years after installation by an EWP Partner. A LANscape EWP 25-year system warranty is offered when all products in the cabling solution

(cables, connectivity, and inter-connecting hardware) are Corning products installed by an EWP Partner.

THE LANSCAPE® SOLUTIONS TOTAL PACKAGE

The LANscape end-to-end product offering is designed to deliver the most technologically advanced communication system to the customer. Corning LANscape products withstand rigorous field and laboratory testing with continual design enhancements in response to rapidly evolving customer environments.

INSTALLATION EXPERTISE AND RELIABILITY

Corning's network of LANscape Extended Warranty Program (EWP) installers are carefully selected and trained. Each partner company meets our stringent

requirements for technical experience, financial strength and proven dedication to quality. EWP partners must demonstrate ongoing commitment to extensive training and are required to update training at least once every two years.

EXPERT SERVICE AND SUPPORT

Corning experts support and assist Extended Warranty Program installers with the planning, designing, and installing of fibre optic and high-end copper cabling systems. The Corning Engineering Services Group provides personalized design assistance and on-site field support on many warranty projects.

With world-wide distribution channels and a world-class customer service centre, Corning makes it easy for EWP installers to quickly get products to your site for installation. Highly trained sales executives located in your area are available for on-site evaluations and cabling recommendations.

MEETING AND EXCEEDING GLOBAL STANDARDS

We guarantee that each customized Corning LANscape cabling solution meets or exceeds global data communication and performance standards.

If your project is installed by an EWP Member, you can be assured that your Corning solution measures up to the international cabling requirements, ISO/IEC 11801 and the European EN 50173.

TOTAL CORPORATE ASSURANCE

Corning's primary focus is on fibre and high-end copper cabling solutions. Our mission is to remain an industry leader in the development and manufacturing of fibre optic and high-end copper products for voice, data and multimedia applications.

Corning's research and product development resources, financial strength, and mature business focus are clearly unmatched in the communications industry.

Corning Incorporated, headquartered in Corning, New York, is the inventor of the first commercial optical fibres and has been a world leader in optical fibre manufacturing for over 25 years. Our unique heritage makes Corning Cable Systems one of a small number of companies that can offer a solid corporate foundation, a tradition of quality, and a name you can trust.

*The Extended Warranty of Corning Cable Systems is subject to the terms and conditions set forth in the EWP Contract to be signed by each EWP Partner and set forth in the Warranty Statement granted to the end-customer of an installation. The liability of Corning Cable Systems for failures /malfunction or alterations of the specifications published at the date of installation is repair or replacement of the defective product. Corning Cable Systems shall not be liable for any consequential damages or violation of the contract terms with respect to the warranty obligation for this product. The maximum liability of Corning Cable Systems within the scope of the Extended Warranty Program is repair and replacement of the Corning Cable Systems product that does not comply with the Corning Cable Systems specifications published at the date of installation of such product plus labour costs in connection with the replacement or the repair of such products amounting to a maximum of Euro 10.000 (ten thousand).
