

Biographical Information

John Bayne
Vice President and General Manager
Corning® Gorilla® Glass
Specialty Materials

John Bayne was appointed vice president and general manager of Corning® Gorilla® Glass in October 2015. In this role, he is responsible for all strategic, operational, and financial elements of the business.

Prior to joining Specialty Materials, Bayne was vice president and general manager for High Performance Displays (HPD) beginning in February 2012. HPD is a business focused on specialty glass for high-resolution LCDs and new OLED displays. In March 2014, Bayne also assumed responsibility for the Advanced Glass Innovations group, a portfolio of early stage programs focused on the display space.

Bayne joined Corning in 1995 as the Fallbrook plant controller, and in 1997 became an international business controller in the Optical Fiber division. From 1999 to 2003, he held several commercial management positions in Photonic Technologies. In 2003, he joined Display Technologies where he led the OLED program. In 2006, Bayne was named president, Display Technologies China and relocated to Beijing. In 2009, he returned to the United States as director of strategy, Display Technologies. He assumed responsibility for a series of glass programs in 2010, including full sheet integrated touch and large-size cover glass.

Bayne holds a bachelor's degree in mechanical engineering from Cornell University, a master's degree in mechanical engineering from Rensselaer Polytechnic Institute, and a Master of Business Administration from Harvard Business School.
