

Biographical Information

James E. Hollis

Division Vice President, Sales & Applications Engineering, Corning® Gorilla® Glass, and Commercial Director, Gorilla Glass Parts Specialty Materials

James E. Hollis currently resides in Taipei, Taiwan where he leads the Corning® Gorilla® Glass global sales and applications engineering teams. Hollis additionally, assumed P&L responsibility for the Gorilla® Glass parts business in April 2017.

Hollis joined Corning in 1989 as a manufacturing supervisor at the Fall Brook plant. During his tenure at Fall Brook, he held various roles in quality engineering and quality systems until he joined Corning Asahi Video as a senior sales engineer in 1995.

In 1998, Hollis was appointed product line manager, Corning Asahi Video Components, where he was responsible for leading Corning's TV Frit, Gun mount, Neck, and Neck Tubing business. In 1999, Fall Brook's Lighting and Electronic Materials businesses were added to his responsibility.

In 2001, Hollis joined Specialty Materials as product line manager, Microlens, and was appointed commercial director, Specialty Materials, in 2003.

In 2007, Hollis was named program manager, Project Mercury, where he led the adoption of Corning Gorilla Glass into Apple Incorporated's first iPhone and iPod Touch devices.

Hollis holds a bachelor's degree in industrial distribution from Western Carolina University.
