Now EDGE8® Solutions Deliver Even More Value

Corning's award-winning EDGE8® solution is the industry's first modular, tip-to-tip optical cabling system to feature a Base-8 design to maximize per-rack-unit density for better network scalability and improved link performance. And now our EDGE8 solutions deliver even more value — more applications, more security, more options, more flexibility, and more ways to seamlessly migrate to 40, 100, and even 400G.
