Industrial Connector Housings (ICH)

CORNING

Features and Benefits

IP tested
Reliability in harsh environments

Routing guides, cable strain-relief provisions included
Easy, out-of-the-box installation

Keyhole mounting holes
Fast installation

Corning industrial connector housing (ICH) family is ideal for manufacturing and industrial applications. The ICH has a tough, baked-on black powder-coated finish, and they are IEC IP64 and NEMA 3S tested.

The housings are designed to accommodate conduit with concentric knockouts and accept standard CCH connector panels and modules. Splicing is accomplished with the splice tray holding kit that may be ordered separately. The units have a padlock outer door and a separate inner door to protect the provider side of the unit from unauthorized access. The inner door may also be locked by using an optional key lock.
