

# Fibre Optic Cleaning Toolkit

CORNING

Corning multifiber connector cleaning kit is designed for effective cleaning of fiber optic connector end-faces, whether fully accessible or in an adapter, in local area network (LAN), central office and outside plant environments. Whether performing a dry clean, wet clean or a combination of the two, each kit offers all the products recommended for cleaning connectors. Since electrostatic discharge (ESD) is a concern during a 'dry' clean, this kit contains cleaners specifically formulated to dissipate static when the end-face is pulled across a cleaner surface or a stick inserted into an adapter.

Corning single-fiber connector cleaning kit is designed for effective cleaning of fiber optic connector end faces, whether fully accessible or in an adapter, in local area network (LAN), central office and outside plant environments. Whether performing a dry clean, wet clean or a combination of the two, each kit offers all the products recommended for cleaning connectors. Since electrostatic discharge (ESD) is a concern during a dry clean, this kit contains cleaners specifically formulated to dissipate static when the end-face is pulled across a cleaner surface or a stick inserted into an adapter.

## Features and Benefits

**Solvents are non-hazardous and ozone-safe**

Shippable by air

**Contains product for "wet" and "dry" cleaning**

Convenience and versatility

**Cleaners for "dry" clean dissipate static**

Addresses electrostatic discharge (ESD) concerns
