

Polishing Film

CORNING

Corning provides a broad range of polishing film sizes and types to meet the performance and polish requirements for all fiber optic connector end faces. Designed for cable assembly houses, field-installable connectors and tool kits, these polishing films have tiny abrasive particles deposited onto polyester material to provide the high-precision grinding and finishing operations necessary to create high-quality optical interfaces.

Features and Benefits

Broad range of film types

Variety of applications

Large particle films

Epoxy removal

Fine particle films

Mirror-like finishes
