

# UniCam® High-Performance Installation Toolkit

CORNING

The UniCam® high-performance tool kit (TKT-UNICAM-PFC) is a carefully designed tool kit that virtually eliminates human variability from the installation process. This legacy solution includes a lightweight, hand-held installation tool with an immediate go/no-go feedback signal to provide unmistakable confirmation of a successful termination. The kit's hand-held high-performance precision cleaver features two heat treated high density stainless steel clamp arms for a precision hold of the field fibre, as well as a diamond blade to achieve a superior cleave. It can be used with multimode or single-mode LC, SC, ST® compatible UniCam connectors (standard- and high-performance) and is required to achieve high-performance specifications for UniCam high-performance single-mode connectors. The tool kit also features a visual based installation guide, video guidance via an included DVD and access to the latest installation videos via QR codes using a smart phone.

## Features and Benefits

### **Terminates single-mode and multimode fibres**

Various installation options

### **Convenient carrying case**

Minimizes setup and teardown time

### **Visual feedback signal (TKT-UNICAM-PFC)**

Termination confirmation

### **UniCam® Connector Flat Cleaver (FBC-007)**

Superior cleave performance

# UniCam® High-Performance Installation Toolkit

## Standards

RoHS	Free of hazardous substances according to RoHS 2011/65/EU
------	---

## Specifications

### General Specifications

Product type	Connector Tools and Tool Kits
Technology	No-epoxy/no-polish
Compatibility	LC, SC and ST® compatible

### Mechanical Specifications Fanout Kit

Height	Depth	Width
48.26 cm	19.69 cm	35.56 cm
