

Corning's Office of STEM

2024 Summer Science Research Experience (SSRE)

July 8 – Aug 16

The SSRE is a 6-week, unpaid experience designed for rising high school seniors (11th graders) in the Greater Southern Tier, NY region who demonstrate a high interest and competency in science, technology, engineering and math (STEM). SSRE provides students with the opportunity to enrich their skills through practical application in a real-world setting.

Program Features

Students are selected on the basis of interest and aptitude

Students are matched with mentors based on mutual interest and experience

Students work on a real-world project, onsite, in their mentor's lab

Students assume responsibility for an experimental process
