CDP Disclosure 2023

Best Practice Reporting and Support

Questions

ABOUT CDP

CDP is a global environmental impact non-profit working to secure a thriving economy that works for people and planet.

CDP runs the **global disclosure system** that enables companies, cities, states and regions to measure and manage their environmental impacts.
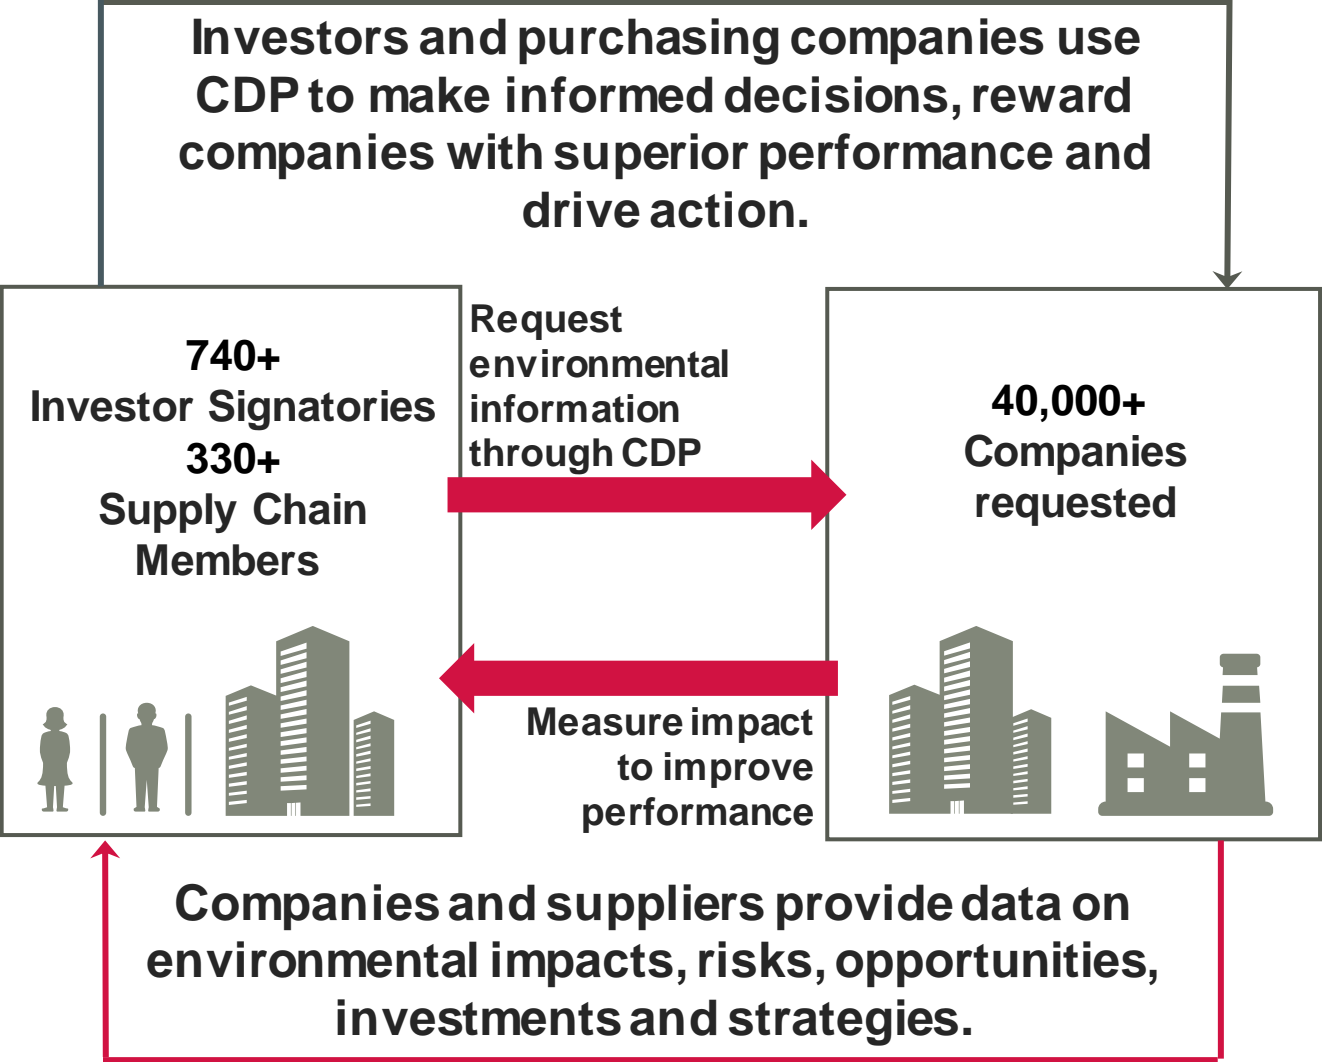

With the world's most comprehensive collection of self reported data, the world's economy looks to CDP as the **gold standard of environmental reporting**.

Its network of investors, purchasers and policymakers around the globe, use our data and insights to make **better-informed decisions**.

How CDP Works

Investors and purchasing companies use CDP to make informed decisions, reward companies with superior performance and drive action.

740+ Investor Signatories

330+ Supply Chain Members

Request environmental information through CDP

40,000+ Companies requested

Measure impact to improve performance

Companies and suppliers provide data on environmental impacts, risks, opportunities, investments and strategies.

Companies take action to tackle climate change, prevent the destruction of forests, and safeguard water resources.

Benefits of Participating

Measure and reduce environmental impact and benchmark impact against peers

Identify cost savings and areas to improve operational efficiency

Identify risks and opportunities and communicate risk management practices

Propose collaborative opportunities and increase value from customer relationships

Demonstrate transparency and operational competence to their customers

**One response** for all customers and stakeholders

2023 CDP supply chain members

300+ purchasing organizations | US$6.4tr+ procurement spend | 40,000+ suppliers

SC Supply Chain

Reporting emissions is a pre-requisite to understanding and reducing negative environmental impacts. **Verification and assurance is best practice** in environmental reporting as it ensures the quality of data and processes disclosed.

◤ **Target Question: Emissions Methodology**

◥ C5.2: Provide your base year and base year emissions (scopes 1 and 2)

◥ C5.3: Select the name of the standard, protocol, or methodology you have used to collect activity data and calculate scope 1 and scope 2 emissions

◤ **Target Question: Emissions Intensity**

◥ C6.10: Provide an emissions intensity figure

◤ **Target Question: Subsidiary-level emissions (if applicable)**

◥ C7.7a: Break down gross Scope 1 and Scope 2 emissions by subsidiary

◤ **Target Question: Emissions Verification**

◥ C10.1: Indicate the verification/assurance status that applies to your reported emissions

Target Questions: Targets and Performance

Target setting provides direction and structure to environmental strategy. Providing information on quantitative targets and qualitative goals, and progress made against these targets, can demonstrate your organization's commitment to improving climate-related issues management at a corporate level. It also **helps Corning understand your ambition levels for reducing your greenhouse gas emissions in the future**.

◤ **Target Questions: C4.1(a-c)**

◤ Details on GHG emissions targets (absolute and/or intensity)

◤ **Target Questions: C4.2**

◤ Details on any other climate-related targets

◤ **Target Questions: C4.3(a-d)**

◤ Details on GHG emissions reduction initiatives, including the nature of the initiatives and resulting emissions and cost savings

Overview of Emissions Targets

All targets have:

◤ Base year

◤ Target year

◤ % reduction you're trying to achieve

◤ Emission source you're going to impact

Types of Targets:

◤ Absolute: Tons CO2e reduced

◤ Intensity: Kg CO2e / (product/revenue) reduced

Example of a Target:

◤ *Company A* pledges to reduce operational emissions 35% by 2025, against a 2016 baseline.

Target Questions: Greenhouse Gas Emissions Allocation

Emissions located in the supply chain are around 11 times as high as those from direct operations. **Allocating your emissions provides further context to buyers** regarding the procedures adopted and/or actions taken by their suppliers.

⬍ **Target Questions: SC1.1 & SC1.2**

⬍ Allocate emissions to Corning, describe challenges, and reporting capabilities.

⬍ Select the name of the standard, protocol, or methodology you have used to collect activity data and calculate scope 1 and scope 2 emissions.

Your responses to the Supply Chain module are visible only to Corning regardless of whether you elect to make your CDP response private or public

Formula for Allocating Emissions by Revenue

Allocate based on the proportion of total revenue represented by Corning

Formula for allocating emissions to Corning based on revenue

$$\text{Allocated GHG Emissions} = \frac{\text{Revenue of products/services purchased by Corning}}{\text{Total revenue of products/services produced}} \times \text{Total GHG Emissions for Scope 1 } or \text{ Scope 2}$$

Working example of allocating emissions to Corning based on revenue

$$250 \text{ metric tons of } CO_2e \text{ allocated to Corning} = \frac{\text{US\$500,000 revenue from Corning}}{\text{US\$200,000,000 total revenue}} \times 100{,}000 \text{ tons of } CO_2e \text{ (Company-wide Scope 1 GHG emissions)}$$

Allocate GHG emissions to Corning: Example of SC1.1

SC1.1

(SC1.1) Allocate your emissions to your customers listed below according to the goods or services you have sold them in this reporting period. 🏷
Note that CDP's disclosure platform supports a file import for this question.

✕ Delete

Requesting member — Step 1

Please select...

Clear selection

Scope of emissions — Step 2
○ Scope 1
○ Scope 2
○ Scope 3

Clear selection

Allocation level — Step 3
○ Company wide
○ Business unit (subsidiary company)
○ Facility
○ Commodity

Clear selection

Emissions in metric tonnes of CO2e — Step 4

1,234.56   *(range: 0 - 999,999,999,999)*

Uncertainty (±%) — Step 5

1,234.56   *(range: 0 - 999,999)*

Step 1: Select **Corning** from dropdown.

Step 2: Choose which scope of emissions you are reporting. Please provide emissions for each scope on separate rows.

Step 3: Select *Allocation level*

Note: if allocating by subsidiary, facility, or commodity, provide emissions for each in separate rows.

Step 4: Provide allocated emissions in metric tones of $CO2_e$.

Step 5: Provide an uncertainty percentage (how uncertain are you in the accuracy of the allocated emissions).

Allocate GHG emissions to Corning: Example of SC1.1

Major sources of emissions — Step 6

Verified

○ Yes
○ No

Step 7

Clear selection

Allocation method — Step 8

Please select...

Clear selection

Please explain how you have identified the GHG source, including major limitations to this process and assumptions made

Step 9

+ Add row — Step 10

Step 6: Provide the sources of emissions for which you have provided an emissions figure. For example, emissions from machinery used in production (scope 1).

Step 7: Was this allocation verified by an independent third-party organization?

Step 8: Select the *Allocation method* from the dropdown. For example, *allocation based on the market value of products purchased.*

Step 9: Provide an explanation about your methodology for collecting and calculating emissions.

Step 10: Add another row to provide emission data for an additional scope of emissions.

Company Journey For Responding Suppliers

Suppliers **disclose** information via CDP

Calculate and report emissions

Set an emissions reduction target

Report activities to reduce emissions

Collaborate with customers to reduce emissions

Reduce emissions and advance low-carbon economy

Phase 1: Establish foundation	Phase 2: Build capacity	Phase 3: Improve performance
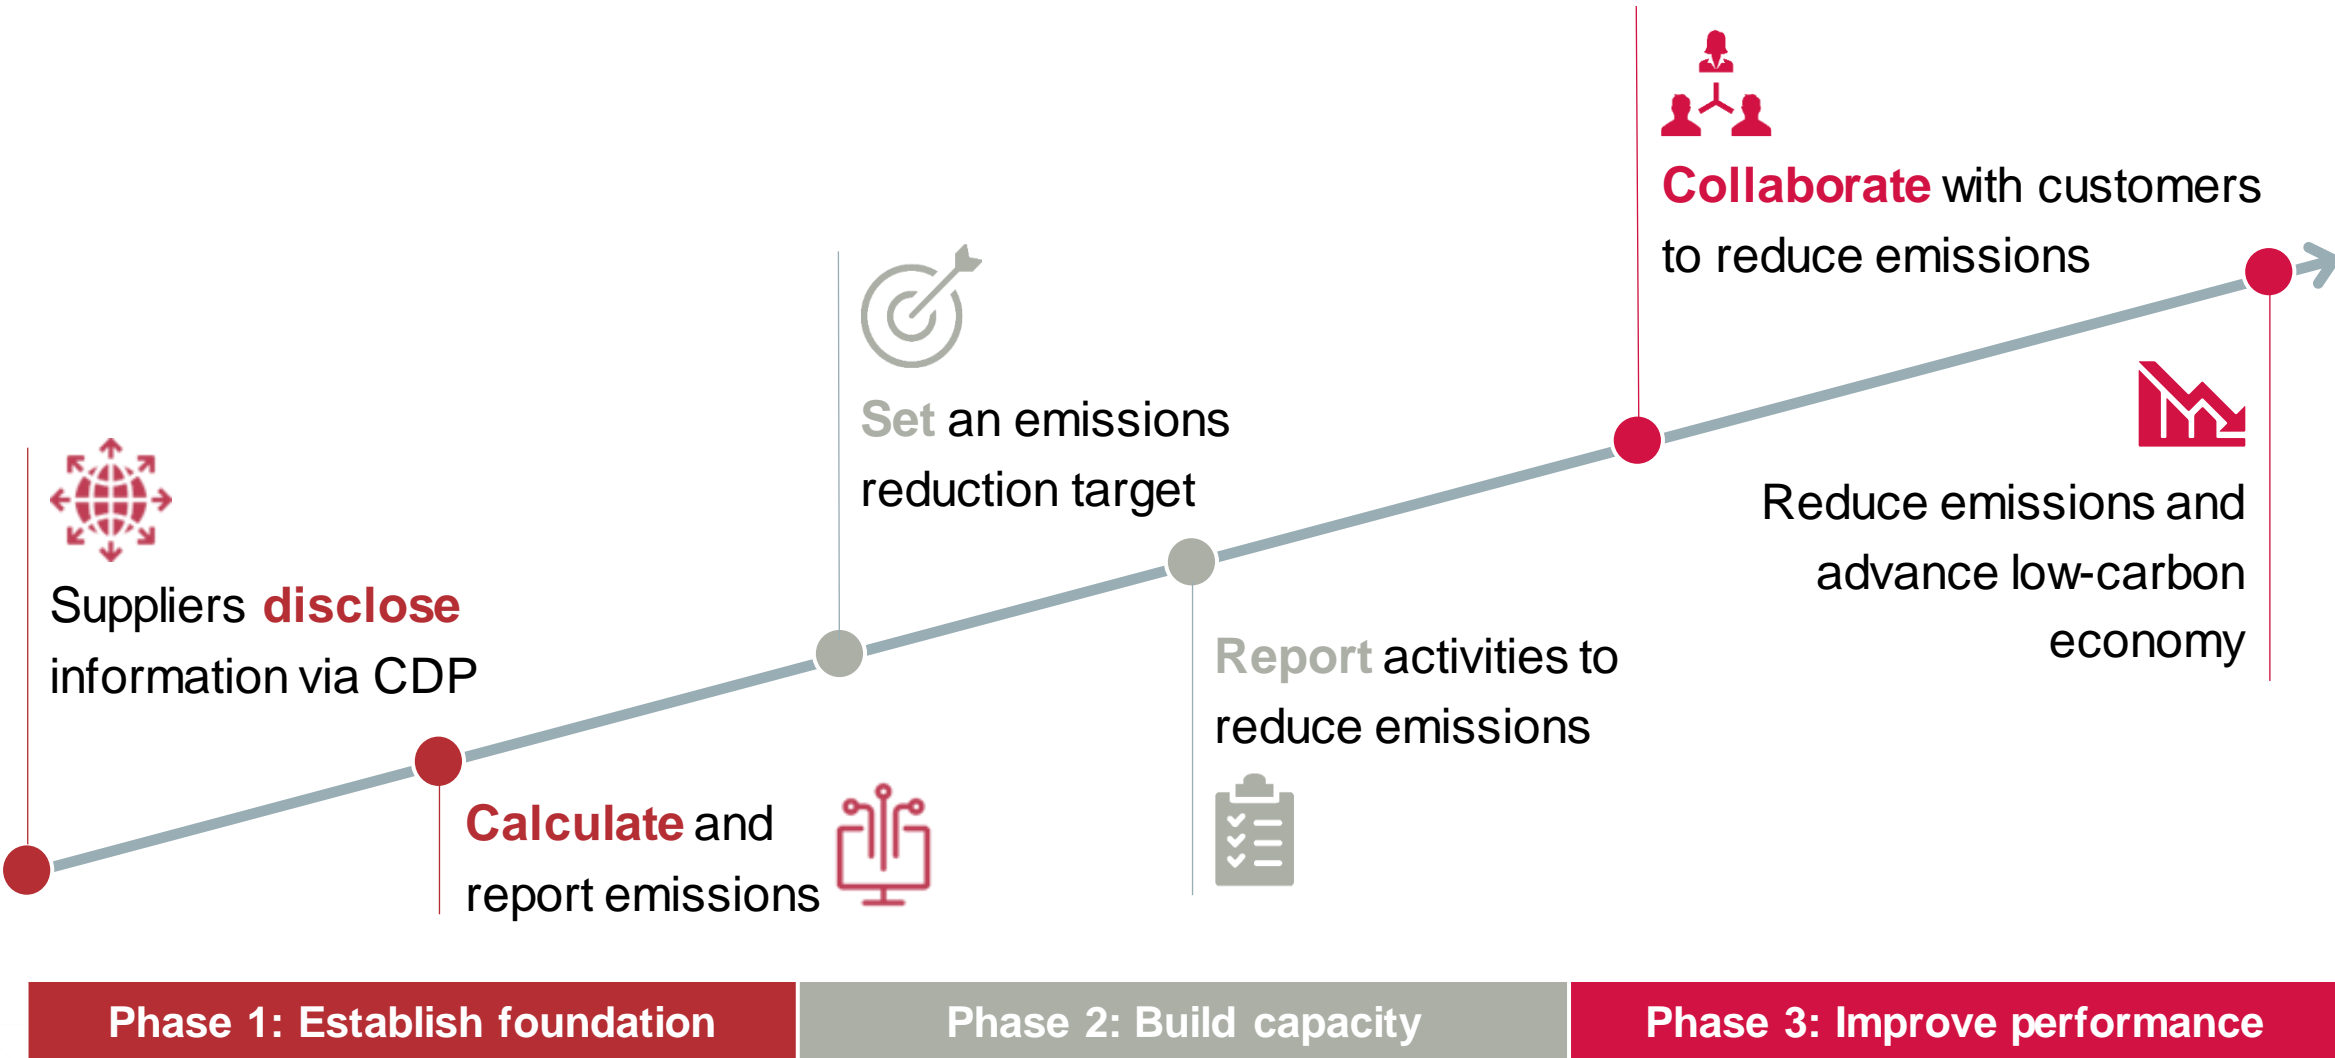

Encouraged Questions: Governance and Risks

Board-level oversight of climate-related issues is considered best practice and provides an indication of the importance of climate-related issues to the organization.

▼ **Encouraged Questions: C1.1, C1.2, & C1.3**

　▼ Details on the level of oversight of climate-related issues within your organization and incentives in place.

Evaluating exposure to **climate-related risks and opportunities** over a range of time horizons allows for a strategy for the transition to a low-carbon economy recognized in the Paris Agreement and UN SDGs.

▼ **Encouraged Questions: C2.1, C2.2, C2.3, & C2.4**

　▼ Details on how your organization has identified the risks and opportunities around climate-related issues

Encouraged Questions: Engagement and Collaboration

2023 MODULES

SC Supply Chain

In order to truly reduce global emissions, companies must **engage with their value chain** on climate-related issues.

▼ **Encouraged Questions: C12.1 & C12.2**

    ▼ Details on how your organization is engaging your value chain stakeholders, including your suppliers.

▼ **Encouraged Questions: SC2.1 & SC2.2(a)**

    ▼ Describe climate-related projects and emission reduction initiatives which you have already or would like to collaborate on with MEMBER*.

Your responses to the Supply Chain module are visible only to Corning regardless of whether you elect to make your CDP response private or public

What is a water-related risk?

Water-related risk: The possibility of an organization experiencing a water-related challenge (e.g., water scarcity, water stress, flooding, infrastructure decay, drought)

Physical	**Regulatory**
- Declining water quality - Drought - Flooding - Dependency on Water intensive energy sources	- Changed product standards - Higher water prices - Statutory water withdrawal limits
Reputation & Markets	**Technology**
- Increased stakeholder concern - Community opposition	- Substitution of existing products with lower water impact options - Transition to water efficient and low water intensity technologies

BENEFITS OF REPORTING

◤ Manage and take action on water risks

◤ Meet investor & market demand for transparency

◤ Reach numerous stakeholders and reduce reporting burden

◤ Turn spotlight on value chain and engage suppliers

◤ Improve reputation and boost competitive advantage

◤ Benchmark and drive progress

◤ Identify opportunities and guide business strategy

PATHWAY FOR SUPPLIER PERFORMANCE

Companies are assessing where suppliers are, and moving them along pathway towards improved water management

Suppliers **disclose** information via CDP

Report current state of water usage

Identify water risk in operations

Report public water policy

Engage suppliers to reduce tier 2 risks

Collaborate with customers to improve water security

Improved water security and performance

Phase 1: Establish foundation	Phase 2: Build capacity	Phase 3: Improve performance

CDP Disclosure Timeline for 2023

Online Response System opens mid April

Supplier support webinars

Deadline to submit, **July 26**

April	May	June	July	August	Into Q1 2024

Official invitation goes out

Early May, you may see other customer requests

Mid June, second reminder email

Early July, third reminder email

Into Q1 2024, scores and feedback

Registering a Contact with CDP ("Join an Organization")

Mandatory dropdown list of requesting Customer

Use company email domain

Optional fields that can assist in registration

Legal organization name ("Example Corporation" or "Example, Inc." rather than "Example")

Adding parent company ensures proper reporting and prevents double counting

Join an Organization

Complete this form to gain access to an existing organization's CDP account. You will need to set up and verify your personal CDP account before you complete this form and attempt to join an organization.

Please note: If you have ever previously contributed to your current organization's CDP response, you do not need to fill out this form. You can skip this step and sign in to your dashboard using your existing details when the Online Response System (ORS) opens in mid-April. If your company is requested by investors/capital markets you can also skip this step and contact support, asking your local contact point to give you access to your company's dashboard. If your organization was requested in previous CDP disclosure cycles, the main user for your account can add you as a user directly from their dashboard once the ORS opens.

Requesting Authority/Authorities

- Questions

Tips for Best Practice Reporting

- **Avoid blank cells, errors, and inconsistencies**

- **Go through the questionnaire with the scoring methodology and reporting guidance** to ensure you meet all possible criteria for each question

- For qualitative responses, **provide clear explanations, rationales, company specific responses**

- **Review peer companies' CDP responses** (publicly disclosing companies)

- **Identify and designate teammates** for stakeholder outreach and questionnaire response

Example of company specific response:

C2.3a - Provide details of risks identified with the potential to have a substantive financial or strategic impact on your business.

- A 'unique' company specific description in column 'Company specific description' – 1 point

Poor response – 0 points	Average response – 0 points	Good response – 1 point
Rising mean temperatures have the potential to negatively affect our operations.	Due to a rise in mean temperatures, there is a risk that the energy consumption needed for air conditioning and refrigeration will increase, leading to an increase in costs. There is a particular risk of energy consumption increasing at our shops, offices, and distribution centers.	60% of our plants are located in central America, an area that has been identified as likely being subject to large increases in mean temperatures. Such increases in temperature may lead to an increase in the energy consumption required for air conditioning and refrigeration to remain effective. This will lead to increased operational costs across our business.

Frequently Asked Questions
Cost and Confidentiality

- ◤ **Does I need to pay to respond to the CDP questionnaire?**

    - ❖ In 2023, suppliers do not need to pay a fee to respond to a request(s) from **ONLY** Customer(s).

- ◤ **I'm concerned about data protection and confidentiality**

    - ❖ Data and information reported in the *Supply Chain Module* are assigned specifically to the requesting company. No other company has access to that information.

    - ❖ Supplier scores are never publicly shared regardless of public/non-public submissions if only responding to customer request(s).

    - ❖ CDP North America is GDPR and CCPA compliant.

    - ❖ Our *terms & conditions* for the questionnaires can be found at CDP.net/guidance

Frequently Asked Questions

Questionnaire

◤ **What if I'm a small business and cannot complete the full questionnaire?**

❖ If this is the first time you are responding to CDP or you are a company with an annual revenue of less than €/$250 million, you can opt into a shorter, minimum version of the questionnaires.

◤ **What if I'm based in a non-English speaking country? Can CDP still support me?**

❖ CDP has global staff willing to help suppliers understand the CDP information request. To request local support or learn about workshops and webinars in a particular country, you should use the online multilingual Help Center.

❖ CDP also produces multiple guidance documents to support suppliers completing the questionnaire.

◤ **Where can I find questionnaire guidance?**

❖ All questionnaires and guidance materials are freely available at https://www.cdp.net/en/guidance/guidance-for-companies

Frequently Asked Questions

Contact changes and push back

◥ **How to change or add new supplier contact information?**

❖ If the supplier already has a designated "main user," the main user can add or remove users for their organization directly from their CDP response dashboard.

❖ If the supplier does not have a main user, you can share a link with the correct contact for them to [register](#) on the CDP website.

◥ **What if I can't respond to the full questionnaire?**

❖ CDP always encourages suppliers to submit a partial response instead of none at all.

❖ Focus on the specific target questions put forward by your customers to reduce reporting burden.

❖ Perfection is not expected in your first response, do your best.

Quick Tips for Getting Started

Before you start:

▼ Allow emails from @cdp.net, disable popup blockers, optimized use in Google Chrome

▼ Visit: CDP Guidance

▼ Review questionnaires offline by downloading them in Microsoft Word or a PDF

▼ Review guidance and scoring methodology

How to access:

▼ Register a contact on CDP's website

▼ Follow the activation link in the April invitation from CDP

▼ Login to CDP's website and activate your questionnaires immediately

▼ If you have not received an email from CDP by end of April, contact the CDP Help Center

▼ Submission Deadline: July 26, 2023

Who to contact with issues or concerns:

In case of:

▼ Non-receipt of an email from CDP by end of April

▼ Technical difficulties

▼ Mis-categorization of industry

▼ Staff changes at your organization

▼ Mergers & Acquisition, parent company reporting on behalf of subsidiary

▼ Business relationship changes

Contact: **CDP Help Center**

In case of Corning- specific concerns:

▼ Clarity on priority & target questions

▼ Problems with Corning request in dashboard

Contact: **sc.corning@cdp.net**

▼ What Corning is looking for

▼ Procurement questions

▼ Corning climate strategy

Contact: gsmsustainability@corning.com

Welcome to your CDP Climate Change Questionnaire 2023

You are completing the full version of the questionnaire.

If you are eligible to complete the minimum version and would like to complete the minimum version instead, please return to your dashboard and select minimum version, then click the continue button to re-launch the questionnaire in the ORS. Answers already completed will be saved.

View of the CC questionnaire in the ORS, once you click Enter Questionnaire from the dashboard.

Questionnaire / Online Response System

Questionnaire / Online Response System

C1. Governance

- Board-level oversight of climate-related issues is considered best practice and provides an indication of the importance of climate-related issues to the organization.
- This module is intended to capture the governance structure of your company with regard to climate change, and provides data users with an understanding of the organization's approach to climate-related issues at the board level and management level.

C1.1

(C1.1) Is there board-level oversight of climate-related issues within your organization? 🏷️

- ◯ Yes
- ◯ No

Questionnaire / Online Response System

C6. Emissions data

- Reporting emissions is best practice and a prerequisite to understanding and reducing negative environmental impacts.
- This module examines emissions data details and is aligned with TCFD Metrics & Targets recommended disclosure b) Disclose Scope 1, Scope 2, and, if appropriate, Scope 3 greenhouse gas (GHG) emissions, and the related risks.
- The GHG Protocol is developing new Land Sector and Removals Guidance. This new guidance is currently in the pilot testing and review phase, and will be finalized and published in 2023. Companies responding to the CDP 2023 climate change questionnaire should report in accordance with existing GHG Protocol corporate standards, and not use the draft land sector and removals guidance for CDP reporting in 2023, as it is still under development.

C6.1

(C6.1) What were your organization's gross global Scope 1 emissions in metric tons CO2e? 🏷️

> Click here for guidance for this question

Reporting year ❓

Gross global Scope 1 emissions (metric | 1,234.56 | range: 0 - 999,999,999,999 |

Online Response System: Questionnaire Submission

CDP Climate Change Questionnaire 2023

Thank you for your submission.

We appreciate the time and effort you have invested to submit your data to your stakeholders through the CDP Climate Change 2023 Questionnaire.

You will receive an email confirming your submission within 24-48 hours. If you do not, please contact your local CDP contact.

We would love to hear from you

CDP is keen to hear from corporations on their experience of using our disclosure platform, and the questionnaires. You can provide feedback via this short form, or via your local CDP contact.

Amending your response

Your response will now be "view-only". If you need to amend your submitted response, please refer to our amendments policy. For more information, please view the FAQs on CDP's website or contact your local CDP contact.

Once the questionnaire has been submitted, you will get a Thank you for your submission screen to confirm that your response has been submitted successfully. A confirmation email should follow in 24-48 hours.
