

Biographical Information

Christie McCarthy
Director of Product Management
Automotive Glass Solutions, Interiors
Emerging Innovations Group

Christie McCarthy was appointed director of product management for Automotive Glass Solutions, Interiors in June of 2015. In this role, McCarthy leads the commercial and technical strategy for application of Corning® Gorilla® Glass in automotive interiors.

Prior to this position, McCarthy was the director of product management for Corning's Innovative Glass Solutions program, where she successfully led, developed, and launched the MASTERPIX™ business.

McCarthy joined Corning in 2000, where she began her career as a senior market analyst in the Optical Networking Devices division. In 2004, McCarthy moved to Taiwan to support Corning's Display Technologies organization by working in the market intelligence and commercial teams. From 2007 to 2013, McCarthy held variety of roles in Corning's Environmental Technologies business, including product line manager, allocation manager, and chief of staff.

McCarthy received her bachelor's degree in international finance from the University of Illinois in Champaign, Ill., and master's degree in finance from the Naval Postgraduate School in Monterey, Calif.
