**PH (Po-Hua) Su**  
Senior Project Manager  
Corning Glass Technologies

PH Su serves as a senior project manager of Commercial Technology, High Performance Displays (HPD) within Corning Glass Technologies. In this role, PH is responsible for display technology assessment and glass substrate requirements for new display glass technologies.

PH joined Corning in 2007 as an attribute project manager for Display Glass Technologies (CDT) where he was responsible for new display technologies and determining glass attribute targets in response to display technology trends.

Prior to joining Corning, PH worked as a chief engineer of LCD material development in the LCD industry managing new manufacturing processes and material evaluation.

PH holds a Masters in Degree in Chemistry from National Cheng Kung University in Taiwan.
