

Biographical Information

Takahiro Furukawa
Program Manager, High Performance Displays
Corning Glass Technologies

Takahiro Furukawa serves as a program manager for High Performance Displays (HPD) within Corning Glass Technologies. In this role, Furukawa is responsible for the development and execution of cost reduction strategy as well as new product launches for the HPD business.

Furukawa joined Corning in 2002 as division process engineer in Corning Display Technologies (CDT) based in Shizuoka, Japan and supported numerous melting production startups within the U.S., Japan, Korea, and Taiwan. In 2007, he joined the CDT competitive intelligence team to enhance competitor technology understandings. In addition, Furukawa has held various commercial roles in CDT and Corning Japan as well as served as the HPD account director in Corning Japan.

Furukawa holds a PhD and master's degree in mechanical engineering from University of Michigan and a bachelor's degree in mechanical engineering from Waseda University. Prior to joining Corning, Furukawa worked in Monitor Group and Philips Broadband Networks Inc.

Furukawa resides in Tokyo with his family.
