

Biographical Information

Dr. Joohyun (Joo) Koh
Commercial Technology Director
High Performance Displays

Dr. Joohyun Koh is the commercial technology director for the High Performance Displays group within Corning Glass Technologies. In this role, Joo is responsible for collaborating with key display and panel makers to introduce Corning's products and process expertise. In addition, he is leading strategic technology initiatives with customers and value chain partners.

Joo joined Corning in 1999 and has taken various research and development positions in the area of telecommunications, photovoltaic, and display. He has been granted 23 patents, and he has authored more than 90 technical reports and peer-reviewed technical publications.

Joo holds a doctorate in materials Science and Engineering from Pennsylvania State University in 1998.
