**Component Related Regulatory Information**

This product may be regulated and have exposure limits as identified in Section 8.

**Component Information/Information on Non-Hazardous Components**

Optical fiber consists of a thin glass filament in a polymer coating. Glass is a solid material produced by combining various raw materials (e.g. oxides, carbonates, etc.), melting these components together, and cooling to a non-crystalline solid having its own unique properties.

Processing of this article may produce dusts or fumes which are considered hazardous under U.S. 29 CFR 1910.1200 (Hazard Communication).

**\*\*\* Section 4 - First Aid Measures \*\*\***

**First Aid: Eyes**

Eye injuries from glass fibers should be treated by a physician immediately.

**First Aid: Skin**

Abrasions from any cut or ground fibers should be treated promptly with thorough cleansing of the affected area. Seek medical attention for prompt removal of any particles that may be embedded under the skin.

**First Aid: Ingestion**

Seek medical attention if material is ingested.

**First Aid: Inhalation**

If inhaled, remove person to fresh air. If symptoms develop or persist get medical attention.

**First Aid: Notes to Physician**

Sharp edges of glass may cause mechanical injury.
