

# Full-Year 2019 Highlights

“In 2019, we grew sales 2% driven by strong performance in three businesses. We advanced key growth initiatives and took actions to address the material impact of changing market and customer dynamics in Display Technologies and Optical Communications. While our 2019 growth did not meet long-term targets, we once again outperformed our underlying markets and expect to build momentum throughout 2020 that will keep us on track to achieve the goals set forth in our four-year Strategy & Growth Framework.”

## Business Highlights

## Market-Access Platform Updates

### Continued progress

across all five market-access platforms, keeping us on track to achieve long-term growth goals

*Automotive* - Accelerated GPF adoption and advanced commercialization of AutoGrade™ Glass Solutions with industry leaders across the auto ecosystem

*Optical Communications* - Continued to co-innovate with industry leaders, including Verizon and Intel, to advance 5G and hyperscale data center solutions

*Mobile Consumer Electronics* - Extended industry leadership with next-generation cover glass solutions and deepened customer commitments

*Life Sciences Vessels* - Signed commercial agreements with three leading pharmaceutical companies, building on FDA approval of Corning Valor® Glass

*Display* - Continued progress toward stable returns, advanced leadership in Gen 10.5 glass, and created richer entertainment experiences through display glass innovations

“We are confident in our long-term outlook and remain focused on key operational priorities that will help accelerate growth and position us to achieve the goals of our Strategy & Growth Framework.”
