Biographical Information

Michael Kunigonis, Jr.

Vice President & General Manager, Corning Automotive Glass Solutions

As vice president and general manager for Corning Automotive Glass Solutions, Michael Kunigonis is responsible for delivering technical glass innovations to the automotive industry for auto interior and exterior applications.

Kunigonis began his career with Corning in 2000 in Corning Optical Communications. Over his 20 years with the company, he has held roles in product line management, strategy, and business development, including three years as assistant chief of staff to the chairman and chief executive officer.

Prior to his current role, Kunigonis relocated to Taiwan to serve as business director for High Performance Displays, a product line within Corning Display Technologies. In this role he led the development, manufacturing, and selling of specialty glass for high-resolution liquid crystal displays (LCDs) and organic light-emitting diode (OLED) displays.

Kunigonis holds a Master of Business Administration from the University of North Carolina at Chapel Hill, as Master of Science in engineer management from the University of Missouri, and a Bachelor of Science in civil engineering from Rensselaer Polytechnic Institute.
