

## Biographical Information

**Jum S. Kim**  
President  
Corning® Gorilla® Glass Korea  
Specialty Materials

Jum S. Kim was appointed president of Corning® Gorilla® Glass Korea in March 2018. In his role, he leads Corning Gorilla Glass in Korea where his overall responsibility includes executing commercial strategy and operation and technology innovation with key Gorilla Glass customers in Korea.

Most recently, Jum held the position of director, new product development in Specialty Materials division, where he was responsible for all technical interactions and design-in activities with Samsung Electronics Corporation. Jum also led the program for delivering next generation Gorilla Glass.

Jum joined Corning in 1999 as a senior development engineer in Optical Fiber division in Wilmington, North Carolina, after working at The Boeing Company in Seattle, Washington as a senior research engineer. From 2002 to 2012, he held numerous manufacturing, product, and technology leadership positions in Display Technologies division at Harrodsburg, Kentucky and Corning, New York.

Jum graduated from Purdue University with a master's degree in Chemical engineering and is a member of AIChE and Tau Beta Pi.
